

Comitte: The committee of World Health Organisation (WHO)

Topic: Measures to prevent illicit drug trafficking

Country: Hungray

Delegate Name: Burcu KOKSAL

Illegal use of drugs was first came across by the poliçe and health institution. Approximately, since 1968, goverment of Hungary tries to solve this drug trafficking. During the past 8 years the final results can be only a tragic.

At present, Hungary is a transit country of Balkan road for international drug state. The ships arrive in Turkey and they are passed to Eastern Europe, mainly by Arabic countries.

New drugs emerged in the illegal market places,streets and new form of drug trafficking. Hungary is a transit country of drug trafficking and became a target country. The children and young people started to acces drugs easily. When illegal drug trafficking first started, the goverment had a tendency to cover it up.

The policy of the goverment brought changes in the views and attitudes and comparing to the previous years. The new strategy is part of these changes. It depends on prevention of strength of families and school education. However, teacher should be educated before students are educated on the dangers of drug addiction. In addition to this, drug addicts should be offered proper assitance and support. These will be the basic measurements fort he new drug strategy.
